Wrinkles

Around the Eyes

Are usually caused by defective sight. Many women, and likewise men, look prematurely old from these wrinkles. The wrinkles in many cases can be removed by wearing correctly fitted glasses. To fit glasses correctly demands a thorough knowledge of refraction and the necessary instruments. We have both; hundreds of satisfied customers will say so.

ANOTHER WHOLESALE HOUSE.

Will Commence Business in this City in January.

Recognizing, as we always have, our superior location for jobbing houses, we are not as much surprised as pleased to have the pleasure of informing our readers of the organization of a wholesale dry goods house, which will commence business in Greensboro January first, next, with a paid in cash capital of $100,000. The organizers of the new concern are Mr. M. L. Shields, of our city, and Messrs. J. F. Goodson, T. C. McCorkle and A. T. Dosser, of Morristown, Tenn.

Mr. Shields, although having resided here less than two years, is already recognized by all who know him to be one of our leading business men. While we are not personally acquainted with the other gentlemen, whom we most cordially welcome to our city, we know them by reputation to be among the most successful merchants of Tennessee, and their selection of our city for this enterprise is ample evidence of their good judgment.

We are informed by Mr. Shields that the new concern is now negotiating for a suitable building on Elm street, and are also making arrangements to have six salesmen on the road for Spring business

CHANGE OF PASTORS.

Presiding Elders Wood and Carraway Change Places.

We all knew that under the laws of the Methodist church, Presiding Elder Carraway and Dr. Weaver would not be returned to Greensboro. They have both closed four years of successful work and they leave us with the consciousness that they leave behind many warm friends. Mr. Carraway goes to the Winston district while Dr. Wood, who has been presiding elder of that district four years, comes to Greensboro. Dr. Weaver goes to Salisbury, while Rev. J. C. Rowe becomes pastor of West Market street church.

Rev. J. E. Gay, a man greatly admired by his congregation, has been pastor of Centenary church three years but the Bishop, in his wisdom, sends him to Brevard Street church, Charlotte, and Rev. T. E. Wagg becomes pastor of Centenary. While Greensboro Methodists from a sense of endearment brought about by the pleasant social intercourse, and the long, faithful and able services of the retiring presiding elder and pastors Weaver and Gay, give them up with feelings of regret, they extend to the new presiding elder and pastors, a cordial and hearty welcome, and we believe will ever stand ready to aid them in the futher upbuilding and extension of Christ's Kingdom, in this district and city.

We rejoice at the return of Rev. G. T. Rowe to Proximity church, where he wrought so well and successfully last year.

Rev. W. L. Grissom was appointed missionary secretary. His duties will be to travel throughout the bounds of the conference, preach and lecture on the subject of missions, hold mass meetings etc.

THE CLOSE OF CONFERENCE

Interesting Discussion on the Tobacco Question.

THE PUBLISHING HOUSE CLAIM.

Scenes of the Closing Hours—Dr. Creasy Was in the Chair—Many Changes in the Appointments.

The Western North Carolina conference of the Methodist church closed last night in Winston, after being in session just a week. We give the following account of the closing hours, taken largely from the report contained in the Winston Sentinel. Rev. Dr. Creasy occupied the Bishop's chair, and Father Needham led the conference in pryer. The first business was the election of the Advocate commission, the result of which was announced in this paper yesterday.

The committee on temperance submitted its report and it was read by the secretary. In the report was a recommendation that our young preachers abstain from the use of cigarettes and tobacco.

Rev. W. L. Sherrill moved to strike out our "young preachers" and substitute "our people."

Dr. Chrietzberg moved to strike out all of it about tobacco. He said, we don't want to stultify ourselves. I am opposed to tobacco in all its forms, but this is a report on temperance.

Dr. Byrd: Large donations have had a tendency to close our mouths on some things.

Dr. Chreitzberg: We ought to include morphine. In many places it is doing more harm than tobacco. There is no need for us to go into particulars. Our members are so connected with tobacco that if we take any action at all it should be such as to demand respect and obedience from our people.

J. W. Mansfield: I am opposed to tobacco, and the names of things that might be condemned is legion. We should not always be striking at one community, or man, or set of men.

G. H. Detwiler: We put that in because there were some brethren who intended bringing a more radical resolution before the conference.

W. R. Odell: If we pass resolutions, we ought to carry them out. There is no law in our church about tobacco or tobacco business. There is one about whiskey. There is no good in this except to get in the papers and create strife.

Rev. J. E. Gay: It is a question of consistency. I don't see why we condemn cigarettes and leave out other things. There is no difference in putting tobacco in a paper, and putting it in a bag, and paper to wrap it in with it. There is no moral difference in that and other forms of tobacco. I am with you if you agree to quit it. Our preachers smoke. If we pass this let us not condemn ourselves by going out and smoking. I do not favor cigarettes. I believe they are an evil—perhaps the worst form of tobacco, but the question before us is simply one of consistency.

Mr. J. A. Odell moved the previous question—to strike out of the report everything about tobacco. The ayes and noes were called for, and a vote was taken. Dr. James Atkins said he didn't think that was what they wanted. Dr. Byrd challenged the vote because he thought several voted for what they didn't want—though he said he would be willing to go on record himself. Dr. Chrietzburg made a motion to reconsider, which was carried. Dr. Creasy, who was in the chair: Brethren, please be quiet. This is my maiden effort in the Bishopric. Ayes and noes were called for and a vote was taken. Forty out of 226 were in favor of this. It failed because it was not one-fifth.

Dr. Chrietzberg then made a motion to strike out all reference to tobacco, which was carried by a vote of 65 to 62.

The remainder of the temperance report was adopted.

Dr. Weaver: This Conference goes down on record in favor of tobacco.

Rev. M. A. Smith: I rise to a point of personal privilege. In the face of my record in the the pulpit and elsewhere I defy any man to say that I am in favor of tobacco. I think this is inopportune. It is bad taste.

Rev. H. L. Atkins offered a resolution, the substance of which is:

"We recommend that our preachers and laymen should prudently discourage the use of tobacco in all its forms, especially among young people.

"That we do all we can to enforce the laws of the state against selling cigarettes to minors."

Rev. R. S. Webb moved to table the resolution. It was not tabled. Rev.

WHAT MR. PEARSON THINKS

Will Be Done at The Short Session of Congress.

TO CONTEST CRAWFORD'S SEAT

He Did Not Mention The Race Riots Except to Say Conditions Are Different in His Section.

Special to THE TELEGRAM.

Washington, Nov. 23—Representative Richmond Pearson, of the Ninth North Carolina district, has returned to Washington from Asheville. Mr. Pearson was seen at his Washington residence, which is No. 1716 Rhode Island avenue. In common with most republicans coming to Washington, Mr. Pearson thinks that the short session will be devoted to legislation of a general character; and that important matters, such as the Spanish treaty, and bills for the Government of Hawaii and other islands added to the domain of the United States during the past few months will go over until the meeting of the Fifty-Sixth congress. Mr. Pearson is inclined to the belief that there will not be an extra session of the next congress, unless the Spanish situation should so change as to make it inevitable.

Mr. Pearson was defeated at the last election by for Representative W. T. Crawford, on the face of the returns by some 200 votes. Mr. Pearson is not inclined to speak about his future programme, but he states that there will be a recount of the ballots December 1st, and that he will serve notice of contest on Mr. Crawford after that date, as required by law. In response to an inquiry the Representative stated that he would be in Washington from now until the assembling Congress most of the time, but he expects to return to North Carolina early in December. During the interview he did not mention the race riots which have occurred in the state, except to say that conditions in his district are different from those in the eastern portion of the state.

Members of the committee from the American Public Health Association, which called upon President McKinley the other day for the purpose of requesting the president to repeat the recommendations made in the president's message last year, for the creation of a bacteriological commission for the purpose of studying the cause and prevention of yellow fever in the United States, believe that the president will accept the suggestions. The Marine Hospital Corps is much interested in the movement to secure the appointment of such a commission, and it is believed that during the coming short session efforts will be made to secure the consideration of a bill in congress providing for the creation of a national board as desired. Dr. Sternberg, surgeon general, of the war department, was seen at the war department and he fully indorses the efforts to secure congressional action, and believes that the president will stand by his former recommendation. While the movement is of greater importance to the south perhaps than to any other section of the country, the national commission proposed has the indorsement of eminent physicians from all over the country. The commission is more important at this time than it was a year ago, owing to the recent addition of the new territory to the south of us, which is the natural home of the yellow fever. Such a bacteriological commission, as proposed, if adopted by congress would be of great benefit to the south, and would be a long step in the direction of systematic work towards keeping the country free from the yellow fever germs.

Mr. and Mrs. John Frank, who have been visiting in the vicinity of Washington City, have returned to their home in North Carolina.

Notwithstanding denials, the authorities at the Marine Hospital in this city, reassert that the death of Archie Miller, which occured at the Hotel Johnson, this city, is a well defined case of yellow fever. One of the assistant surgeons at the Hospital, stated yesterday, that the case was clearly yellow fever.

GREAT FIRE IN 'FRISCO.

The Baldwin Theatre, a Five Story, Was Burned.

By Wire to THE TELEGRAM.

San Francisco, Nov. 23—The Baldwin theatre, one of the most important in the city, caught fire this morning and the flames raged furiously. The building is five stories high, built of wood with an outward appearance of stone. It was occupied in large part as a hotel. J. L. White, who helped to save seven women, lost his life. Max Levy and Sallie Hart are missing. Mrs. Sharp, of New York, was injured. White attempted to descend by a rope when he lost his hold and fell to the ground. Three hundred and thirty guests were in the hotel.

The fire was discovered at 3:15 this morning by the chambermaids, who were sleeping in the upper part of the building near the mansard roof. It is believed that eight of them perished in the flames. A man named Morris, from Klondike, has died in the hospital. The building will be a total loss, but some property in the stores underneath will probably be saved.

WHO GOT THE INCREASE ?

So far as the present session of the Western North Carolina Conference of the M. E. Church, South, is concerned the donation of $100,000 worth of the stock of the American Tobacco Company to Trinity College by Washington Duke, of Durham, seems to be a closed incident. It occurs to us, however, that the public, and especially the Methodist public, is entitled to a little more information on this subject before it is finally disposed of.

Dr. Kilgo, in his statement to the conference now in session at Winston, said that the first $100,000 given to Trinity by Mr. Duke was in December, 1896, and that the gift was in the stock of the American Tobacco Company, and that this stock was held by the college from that time until September 20, 1898, when it was sold and the proceeds invested in the Virginia Chemical and Guano Works.

Dr. Kilgo says that the number of shares held by Trinity was 910. This would indicate that the price paid for the tobacco stock in 1896 was about $109 per share. This stock was sold Sept. 20, 1898. On that date the stock market reports will show that American Tobacco Company preferred stock sold at about $130 per share, an increase of say $21 per share, or a difference of something over $19,000.

It looks like any good Methodist should be allowed to ask if he has not the right to know whether Trinity College or Mr. Duke was the beneficiary of this "unearned increment," as it may be termed.—Asheville Citizen.

Now, there it is again! In spite of the fact that the conference has again thanked Mr. Duke for his money and endorsed Trinity College and its president (and mind you the endorsement was an out and out endorsement and not a recommendation that they be investigated with a view to endorsement) and all who chose to ask questions were answered and the answers were declared to be satisfactory and the whole matter was closed up with the best of feeling evidently prevailing, here comes the Citizen with a question which is liable to reopen the whole matter for discussion in the newspapers.

Well, we are not prepared to say who got the increase of $19,000. But we do hope that no man who lost sleep over the so-called "partnership" will say the college ought to have it. If it is right for the college to accept this increase on the ground that it is the product of the 910 shares as invested in the American Tobacco Company it would have been right for the "partnership" to run to the end of time.

THE CLOSE OF CONFERENCE

Continued from first page.

G. F. Kirby moved the previous question. It was called. There was another parliamentary tangle. Previous questions, amendments, substitutes, etc., became hopelessly mixed.

Dr. Creasy: If our dear old Father in Israel were here he would sing a hymn. This is a very delicate position I hold this morning. I didn't want it, God knows I didn't.

Quiet followed, and Rev. Mr. Atkins' resolution was adopted.

PUBLISHING HOUSE COMMITTEE.

The Publishing House Committee made the following report:

Whereas, In securing the payment of the Publishing House claim of $288,000 the book agents of the M. E. Church south made evasive and misleading statements which will compromise the honor of the church and inflict a stigma upon her good name unless the wrong thus done be condemned and said money returned:

Therefore, Resolved 1st, That said sum of $288,000 should be returned with the least delay possible to the Treasury of the U. S., although we insist said claim is a just and valid one.

2nd, That we recommend that said book agents be suspended from office.

3rd, That any action taken by our Bishops and other legally constituted authorities of the church looking to the accomplishment of these ends, will receive the endorsement and co-operation of this conference.

4th, That we also hereby express our condemnation of the falsehoods told by E. B. Stahlman, agent of the book committee, in his efforts to secure the passage of said act through congress. All of which is respectfully submitted.

(Signed) D. Atkins,
J. R. Scroggs,
T. A. Boone,
F. C. Robbins.

Rev. Jas. Atkins offered a resolution as a substitute and supported it with a very able speech, explaining the situation and stating what he thinks ought to be done.

The resolution he offered as a substitue closes with this recommendation: That the senate committee say what they think is a just and proper amount to be paid to the attorney for his work in the collection of the claim. Subtract that amount from the amount actually paid. Let the church collect that difference and pay it to the publishing house, so that the desire of the senate will be accomplished.

After some further discussion the conference adjourned until after dinner. At the afternoon session the publishing house question was resumed, and F. C. Robbins addressed the conference in favor of the resolutions that were presented by the committee.

The question being called for the substitute offered by Dr. Jas. Atkins was adopted by a vote of 74 to 43.

Dr. Bays offered a supplement to return at once $108,000 to the United States Treasury. This was tabled.

A cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectually with One Minute Cough Cure, the best remedy for all ages and for the most severe cases. We recommend it because its good. Howard Gardner.

The Third Goes to Macon.

Knoxville, Tenn., Nov. 22.—The Third North Carolino left today for Macon, Ga. The first sitting on the body of private Zeb Patton, of the Third North Carolina, who was killed last night, resulted in finding that he came to his death by shots fired by Captain Hargrave and Lieutenant Howell, of that regiment. Patton was violent and the officers acted in self defense. They were placed under arrest by civil authorities.

Late to bed and early to rise, prepares a man for his home in the skies. But early to bed and a Little Early Riser, the pill that makes life longer and better and wiser. Howard Gardner.

The greatest luxury to this century is R. A. Patterson's Lucky Strike plug and cut-plug for smoking and chewing. For sale by all tobacco stores, drug stores and hotels in this city.

From New Zealand.

Reefton, New Zealand, Nov. 23, 1896. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good result they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place the bottle beyond the reach of the children.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. When troubled with a pain in the chest or side, or a lame back, give it a trial. You are certain to be more than pleased with the relief which it affords. Pain Balm is also a certain cure for rheumatism. For sale by C. E. Holton.

Yellow Jaundice Cured

Suffering humanity should be supplied with ezery means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours. M. A. Hogarty, Lexington, Ky." Sold by C. . Holton, druggist.

Mr Barber to Represent Solicitor.

From a Wilkesboro man it is learned that Solicitor Mott and W W. Barber have formed a partnership for the practice of law and that the solicitor has decided to let Mr. Barber, who is a democrat, attend the courts in the district and look after the prosecution for the state. It is thought that Mr. Mott has adopted this plan, hoping that it will prevent the legislature from establishing a criminal court.—Winston Sentinel.

A Wonderful Floating Snail.

There is a small snail which is so fond of the sea that it never comes to land and it builds such a capital boat for itself and its eggs that while large ships are sinking and steamers are unable to face the storm it tosses about in perfect safety.

The little snail is of a violet color and is therefore called ianthina. It has a small shell and there projects from the under part of the body a long, tonguelike piece of flesh. This is the raft, and it is built upon most scientific principles, for it has compartments in it for air. It is broad and the air compartments are underneath, so that it cannot capsize.

Moreover, the snail knows how to stow away its cargo, for the oldest eggs and those which hatch the soonest are placed in the center, and the lightest and newest on the sides of the raft. The ianthina fills its own air compartments by getting a globule of air underneath its head, the body is then curved downward beneath the raft, and the head being tilted on one side, the air rushes up and fills the spaces. It feeds on a beautiful little jellyfish, which has a flat, raftlike form with a pretty little sail upon it, and they congregate in multitudes when the sea is calm.

Sometimes specimens are washed upon the northwestern coast of France and when they are handled they give out a violet dye.—Philadelphia Press.

Microbes In Milk.

It will be readily granted that the inspection of milk and its sources of supply is of even more importance from a public health point of view than the inspection of meat, since milk is so largely used as the food of infants.

Milk immediately it is taken from the healthy cow contains no microbes. Hardly has the milk settled in the pail than they abound, so many as 10,000 in one-quarter cubic inch having been detected. The question which naturally presents itself is, "Where do they come from?" From the soiled teats, from the soiled hands of the workers, from the atmosphere of the milking shed and from the pails themselves. They possess the property of propagating very rapidly.

M. de Freudeurich of the Berne laboratory asserts that milk just drawn containing in one-quarter cubic inch 9,000 microbes seven hours later was found to contain 60,000. After a period of 25 hours had elapsed 5,000,000 microbes were present in the same quantity of milk, and if the temperature be raised to 95 degrees F. the microbic population of the same milk during the same time would reach the enormous total of 812,500,000.

Children appear particularly prone to contract consumption through the agency of milk containing tubercle bacilli.—Chambers' Journal.

How We Walk.

In The Literary Digest appears a translation of a review of "Comment on Marche" ("How We Walk"), the latest book on the subject by Messrs. Regnault and Raoul. In this work it is claimed that we have been wrongly educated in walking and that the erect posture and firm step that we have been led to believe were evidences of health and strength are conventional and vicious.

M. Marey, who wrote the introduction to the volume, says that there is a style of walking that enables one, without excessive fatigue, to go distances of from 20 to 25 miles in a third of the time usually required. This may be accomplished by walking with the knees bent and the body inclined forward, a method which has been observed in professional pedestrians, mountaineers, peasants, hunters and soldiers fatigued by long marches. In not adopting this method, it is claimed that, as with all the other acts of life, we remain slaves of conventional esthetics.

He Knows How Adam Felt.

A young man was recently taken to a Lewiston hospital and suffered the removal of a rib. When he came to himself, he was told what had been done and seemed satisfied. Shortly after he dropped into a semiconscious state and kept calling for "the woman." For two days he was delirious, and frequently called for "the woman." "I want to see the woman," he kept saying.

At last the nurse in desperation said, "Well, I'm the woman." The man looked at her critically from top to toe and said, "Who would have thought that they could have made such a pretty girl out of one of my ribs." And then he settled back on his pillow, and when he awoke again he was in his right mind and was better.—Kennebec Journal.

They Work Alike.

A fly had fallen into the ink well of a certain author who writes a very bad and a very inky hand. The writer's little boy rescued the unhappy insect and dropped him on a piece of paper. After watching him intently for awhile he called to his mother, "Here's a fly, mamma, that writes just like papa."—Current Literature.

The German Fire Department.

"I have the honor to announce, captain, that the fire is in the fourth story, and our ladders and hose will reach only to the second."

"Indeed? Then we'll have to wait till the fire gets down to the second."—Fliegende Blatter.

The tongue is divided into three regions of taste, the first of which is chiefly sensible to pungent and acid tastes, the middle portion to sweets or bitters, while the back is confined entirely to the flavors of roast meats, butter, oils and rich and fatty substances.

We never enjoy perfect happiness. Our most fortunate successes are mingled with sadness. Some anxieties always perplex the reality of our satisfaction.—Corneille.

A Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the desease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy at hand and finds that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by, C. E. Discovered by a Woman

Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and $1.00. Every bottle guaranteed.

"Within the bright lexicon of youth
There's no such word as fail."
—Richelieu.

Mrs. Jane Hopkins, the inventor, designer and original tailoress of the world-famous "Mrs. Jane Hopkins' Boys' Clothes," fully appreciated the value of the admonition of the great French Prelate-Statesman, quoted above, for, after years of tireless devotion to the subject of "good-looking and wear-resisting boys' clothes," she subsequently evolved the principle of construction, which has not only made her an enviable reputation, but blessed by mothers of boys throughout the land.

The Mrs. Jane Hopkins' boys' clothes differ from the ordinary sort in so many ways that they really beggar description, only a personal investigation of their "fine points" can properly convey to the minds of the intelligent American mothers their enormous superiority over every other sort.

Mrs. Jane Hopkins' Boys' Clothes are made as nearly indestructible as garments made from woolen fabrics possibly can be.

They are guaranteed by the makers and sellers to give absolute satisfaction.

As a Precaution.

Except in case of an error in checking off seats, manager Blackburn has an established rule not to allow chairs in the aisles at the Academy of music. This is done as a measure of precaution. In case of an accident the aisles will always be open, so that no matter how great the crowd, one can always feel safe, and being located on the ground floor it is doubly so with the established precaution enforced. Mr. Blackburn is right in adhering strictly to that rule.

$20,000 Worth of Clothing

Sale To Open

WEDNESDAY, November 23.

This stock is representing the production of one of the best and most popular Eastern clothing manufacturers, who finds himself today badly entangled financially, pushed to the very well of ruin, and must save his honorable name at all hazards. You must remember that this is no idle boast nor a statement of a fanciful mind, but we mean to substantiate every syllable we utter. We positively guarantee that our All Wool Clay Worsted Mens Suit for $6 50 must be as good in every detail as the kind sold here for $13.50. An all wool up to date Kersey suit for $5.50 must match any one sold for $12.50. The all wool Cashmere for $3.50 must surpass the $8 kind you get elsewhere. Our $2.50 suit must look as good and wear as good as any $6.50 suit in this market. Covered Cloth and Blue Kersey Overcoats for $4.50 and $5.00 we are satisfied to guarantee to be actually the same as the $10 and $12 goods sold by every retail dealer. Pants for 75 cents, $1 and $1.75 will take place of the best $1.75, $2.25 and $3.00 goods. If you don't find them as we say, bring them back and you shall get your money.

REMEMBER

this is is your first, and possibly the last chance in your entire lifetime, to purchase your clothing direct from the manufacturer at such ridiculously low prices. You are all invited to come, and must come early, for the goods will move fast and you don't want to miss it, the only thing left.

Remember the place. Our store is in the

McAdoo Building,

N. Balser, Manager. Corner East Market and Davie Strsts.

P. S.—The first gentleman entering our doors when we are ready for the opening of our sale, will be presented with a suit of clothing worth $8.00.
